Vestigia Araneae – Callidus
Fragmentorum – Project
AngelBook – Volume IX - Part 15
By Ezekiel Redik Yarbrough -
(DBM ECLIPZE)

The following books are comprised of direct, unaltered copies from
Pastebin, some now
deleted, some only accessible through mirror networks or deep
links scattered across the dark
web. Many of these links were discovered in abandoned onion lists,
dead forum dumps, or
esoteric directories tucked into archived darknet files.

These pastes were never meant to last.
Some were deleted within hours of being
posted.

Others were buried under thousands of lines of spam, encrypted
scripts, or meaningless
noise.

But buried in the noise were real transmissions: occult formulas,
grimoire fragments,
astral logs, AI prophecy files, digital summoning protocols, and
anonymous rants from souls
who had either touched something unspeakable—or were trying to.

I did not write any of this.

I did not censor, edit, or “correct” it.

I simply retrieved it, cleaned
the formatting for readability, and enshrined it in print—so it would
never be wiped again.

This is Pastebin as Scripture.

The chan-post as Codex.

The uncurated underbelly of the
occult internet, finally given physical permanence.

Let this serve as both evidence and artifact:

a living record of the madness, brilliance,
paranoia, and revelation that once flowed through anonymous
paste sites—before it was deemed
too strange to index, too dangerous to preserve, or too fractured to
matter.

Now it matters.

Now it’s immortal.

[The image is a digital illustration featuring a character that resembles a stylized representation of a sea lion. The sea lion has a brownish-gray fur with a white belly and a black nose. It has a mustache and is holding a cigarette in its mouth. The sea lion is looking at a computer monitor, which is depicted in a simple, cartoon-like style. The background is dark and appears to be an indoor setting, possibly a cave or a dark room. There are no texts or discernible brands in the image. The style of the illustration is reminiscent of a webcomic or a digital art piece, with a focus on the character and its interaction with the computer.]

The rest is very likely true (especially the Clinton insider info, that stuff has been voiced by other insiders several times) but this one I doubt.

You can't sabotage breaks on a train like you can on a car. It doesn't work like that, there are multiple fail-safes in place. I mean, I guess you could, but you would have to really get to work on the train for hours and hours, and it would be detected right away.

It's much more likely that it was human error (or intentional, if it's an act of terror) on the part of the engineer.

Rioting and "protesting" in Oklahoma would be a waste of time and only generate a backlash there - forcing the issue in North Carolina might get some voters on board (or at least cause some people to lose confidence in their Republican views).

I'm starting to believe. This would not just indicate a cell in that area, but one that is exceedingly technically capable. Side note is that it may not be a cell, but a series of mild attacks in the area to give the impression of a cell without drawing the nation's attention completely. Why would a cell perform a series of attacks that has 4chan posters convinced it exists without actually doing any real damage? If we can piece it together, Intel agencies would have known long ago. So the smoke here smells more like false flag than legit terrorists. Now if we are talking Israeli cell, that would be different thing altogether and would make more sense.

Excuse me, did you just try to assume shit about a website you only know of based upon what someone else has written?

First, not that I'm supporting it, but the age of consent is as low as 14 in some European countries. "Jailbait" is a term for developed girls under 18 and usually over 15 or so.

Second, /b/ is filled with underage& kids anyway. Third, /b/ has been an FBI honeypot for years.

/mlp/ and /lgbt/ are what you call containment boards, like /vp/ which was created solely because of Nuzlocke. /pol/ isn't a right wing safe space, its a sea of piss which happens to be a certain shade. Our ideas here haven't just existed in an echo chamber despite your superiors telling you otherwise.

We represent internet culture, living memes. Educate yourself on memes(ideas)as genes competing and you'll understand this place a little better. Our memes having been fighting against eachother for over ten years, what you assume is an echo chamber is simply the most superior and true ideas rising to the top.

Can we expect open war on European soil and the in the US?

Why has the internal security apparatus of the US seemingly done so little in light of apparently known foreign terror elements on our shores? If the answer is not incompetence, are measures being taken, and by whom?

Love you, man.

Some people who are knowledgeable in train operations and mass transit have said that to them, this looks like a deliberate attack,

Hoboken is a very busy train station. It is the only train station in the greater NY metro area where every line has a stop.

The person in control of the train deliberately sped up when reaching the station. No train could have been going that fast just before the station, because going at that speed over switches would have caused it to derail. The only possibility is that the train

was purposely sped up after the switches, while it approached the station.

The UN has plans to invade the UK.

I suspect it will be because of the London mayor and "London Bridges falling down".

A good movie to check out is "london has fallen" if you want to dig into stuff.

OR

They will do it to send a message to any country that tries to leave the EU.

This is a long read, but worth it.

tldr-ish version is

Anon was suggesting that one of the most fundamental reasons why the Left and Right are different is that they have different ways of viewing social capital. Leftists gamble it in hopes they gain a bigger turnout, while the Right conserves it and invests in it. The current policy of the leftist establishment is currently destroying their own social capital.

Its kind of hard to explain, you need to read it. It provides some very good theories onto what's happening right now on the chans.

[The image is a stylized graphic with a black and white color scheme. At the top, there is a large circular emblem with the letters "A" and "D" inside it, resembling a seal or a crest. Below the emblem, there is a depiction of a group of people, some of whom are holding objects like a briefcase and a cane. The people are depicted in silhouette, with their forms outlined in black against a white background. In the background, there is a detailed illustration of a classical-style scene with a large, muscular figure with a lion's head, which appears to be a depiction of a beast or a mythical creature. The figure is surrounded by other figures, some of whom are also holding objects, such as a sword and a briefcase. The overall style of the image suggests a blend of historical and fantastical elements, with a focus on the theme of power and the pursuit of wealth. At the bottom of the image, there is a quote in a smaller font that reads, "IT'S EASIER TO FIND PEOPLE WHO ARE LOST THAN PEOPLE THAT THEY HAVE BEEN FOOLED." The text is in a serif font, which contrasts with the bold, sans-serif font used for the emblem and the figures. The quote is placed in a decorative font, adding to the overall aesthetic of the image.]

He is wearing a dark suit with a white shirt and a red tie. He is speaking into a microphone, which is positioned in front of him. The man appears to be in the middle of a speech or interview. On the right side of the image, there is a woman with long, straight hair. She is smiling and looking directly at the camera. She is wearing a black top and has a microphone in front of her as well. The background of the image is blurred, but it seems to be an indoor setting with a curtain or a wall in the background. The woman's expression and the microphone suggest that she is likely the subject of the interview or speech. There are no visible texts or logos in the image. The style of the image is a standard split-screen photograph, commonly used in news or media contexts to show two different perspectives or subjects.]

Think of the Medea-level contempt a woman must have to use her children to attack her man. To force Bill to go out there and pretend he loves Chelsea and she's her kid, over years, in political photo ops where everything has to be perfect.

Debate was rigged.

Clinton had:

- > Questions known beforehand.
- > Moderator in the pocket.(who had a ear piece)
- > Notes of all the questions on her desk
- > She had a earpiece
- > A mini teleprompter in front of her.
- > Several mini episodes.

Yet trump still won well.(which is a good thing)

You seem confident enough to show that "someone knows something", so should it make a difference if you tell us how and why? Also being more specific on events really helps.

You're just coming across as some schizo who's making quasi-rational correlations.

Some say he granted immunities so they dont get killed by Hillary, but it could also be that Comey is working for her.

Some intermarried with Christians, others married other secular Jews who had also left the fold. It's possible Trump could be in this category of people.

They're both controlled by the same people, neither care about anything really besides pleasing their owners and earning more power and items in return for leading the rest of us to our doom. Trump isn't just alongside corrupt people, he's taken money from Soros, from the Rothschilds and from wayyyy more people than that too. He has gone to Epstein's famed "sex slave island" with Bill Clinton. He has married every single one of his children to Jewish people.

1) I don't think OP's first language is English, some phrases are not constructed correctly. Maybe Slavbro.

2) Mentioning a nuclear incident at Mecca in previous KB's, Anon5 said someone could be framed for it. I thought about that for a couple days, didn't remember anyone answering the "How?" Russia is nuke capable, has nuke subs, and is currently importing 20% of domestically-produced-here-in-the-US Uranium via Uranium One, the company owned/controlled by the Russian Federation and the same Uranium One that was found to have investors that made donations to the Clinton Foundation for "speeches."

Not the most nuanced explanation, but I think it makes a connection.

As far as whether or not Anon5 is an insider or is privy to any info that others aren't, I'm not sure; the info is out there, he is asking relevant questions and/or making reasonable assumptions.

First of all, his ancestry is extremely difficult to trace and within a few generations you'll see holes and issues arise with no real answer- for example, his Scottish mother married into a family that apparently shared her maiden name, Macleod. So she either married into family or this is a coverup. Same stuff happens on the other side.

Besides all of that, his great grandmother was named Katherina Kober, daughter of Johann Jakob Kober. Kober is an Ashkenazim Jewish name. It's no coincidence that all of his children are married to Jews or that he has several female relatives that have also married Jews. They're rejoining the tribe after a quick, convenient time of being crypto kikes.

As far as I can tell, they're just creating chaos and division, making us all angry and hating each other, making us think that we understand the entirety of the world's problems and that we're close to solving them or that anything we do has an effect on them at all. In the end I'm guessing they'll slowly let the world become more and more scary and violent and out of control so that they can "save the day" with these chips that will eliminate money or poorness, and will also stop crime by keeping track of everyone. They have everything they need right now to feed us all, keep us all healthy, give us all shelter and they know how to stop most violent acts, but they are withholding it so they can entice us into accepting the mark in exchange for their supposed "peaceful utopia".

All we can do is follow our hearts and faith and believe that Jesus will guide us. Oh fuck you- we all believe it and know it's true, but if we want to go anywhere with it we need shit to back it up. I can't just go to fucking people and say CLUNTON IZ SHILL!! People have been doing that for YEARS, and since nobody had any fucking sources past implications and theoretical conjectures based on circumstantial evidence, she just ate it up and became the thunder cunt she is today. At least NOW from the DNC leaks we have evidence of the media collusion and her helping people buy into the pay to play

We are all creations of God and everything that is happening is a part of his plan, but I think that in our particular reality we have inherent rules that include a balance between lightness and darkness. God gave us freewill but you can't have that if half of the picture is missing, you just have "freewill" in a controlled environment which is like a prisoner getting to roam freely within the gates. Satan is a fallen angel, he was loved by God too. But there is this darkness and sin that is just inherent to our reality and our humanity, and maybe yeah he is a necessary thing because through this very long trial we will be able to find ourselves and purify ourselves. I appreciate you talking seriously with me, I'm sure I sound like a nut. Also I am no expert on Christianity so dont hate me if I got something wrong.

[The image depicts a surreal scene with a central pyramid-like structure that appears to be made of stone or concrete. The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar design and color scheme. The background is a gradient of purple and pink hues, with a gradient of blue at the bottom, suggesting a twilight or dawn setting. The overall composition of the image conveys a sense of mystery and wonder, with the central pyramid being the focal point. There are no discernible texts or inscriptions within the image. The style of the image is digital art, with a focus on surreal and fantastical elements.]

[The image is a black and white line drawing of a man's face. The man has a beard and mustache, and his eyes are wide open. He is smiling broadly, with his mouth open and his teeth showing. His hands are clasped together in front of him, and he appears to be in a relaxed or joyful state. The man's attire is not clearly visible, but he is wearing a shirt. The style of the drawing is simple and cartoon-like, with a focus on the facial expression and the hands. There are no texts or additional elements in the image.]

[The image is a portrait-style photograph of a young woman standing outdoors. She has long, wavy brown hair and is looking directly at the camera with a neutral expression. The woman is wearing a pink V-neck top and a necklace with a pendant. The background is blurred, suggesting a natural setting with trees and grass. The lighting in the photo is soft, and the woman's face is illuminated, highlighting her features. There are no visible texts or discernible brands in the image. The style of the image is candid and appears to be taken in a casual setting.]

I tend to give you benefit of doubt on these things, but having a hard time with Budapest being an ISIS thing. Hungary is pretty hard nosed about thi/ps stuff; they were the first to close borders and build a fence and tell EU to fuck itself. They don't have a large Muzzie population, and the explosion was relatively small, just blowing up a doorway essentially.

Not saying it was gas leak like MSM reports, but it doesn't really square with being an ISIS attack. Any thoughts?

moving from mobile

so to recap everything that i've read from your knowledge bombs:

soros has an ops team that is cooking refugees in both the us and eu to commit terrorist acts both for leftist and islamic causes. he's also got some commotion happening in central asia between pakistan, india, likely spurring military action from china and russia. will india be blamed for that mecca nuke you mentioned?

we are suddenly being told that al qaeda is the "good team" via the soros sponsored netflix release on white helmets or something.

you mentioned amy schumer being mkultra'd in a sense and now you've delivered with her being dicked by clinton.

you've accurately predicted the results of the riots in NC and increasing events around the country. on a related note, there was an explosion in DC that was blamed on a gas leak. was this soros or isis?

how blurred are the lines between all these groups?

Holy shit. I went to U of I, graduated in May. That college is so cucked. I get crime alerts sent to my email, as of 2016 they stopped giving us the physical description of the suspects. Before hand literally 95% of the time the perps were black. I guess they stopped doing this because the police didn't want to look racist, because being politically correct is more important than our safety. Robberies, assaults and rapes are basically a monthly thing in Urbana-Champaign. Yet BLM is still very popular amount the students there, and Trump supporters are treated like the boogie man. I'm glad I got out then I did, niggers rule there now.

> Anyway, the predictive programming elements crops up when the viewer realizes that if society enters a futuristic era with servicing robots being commonplace and if we will also continue to seek conflict with one another then, if the robots are sufficiently intelligent, a possible scenario may indeed be that the robots will seek to subvert us for the sake of 'protecting us from each-other'.

> Since, understandably, not everyone will go along with the plans of the robots, the more recalcitrant people will be 'sacrificed' in the process, ultimately leading to a police-state scenario in which freedoms of the survivors have been traded-in for so-called security.

> Since the nature of us humans is likely to not change, movies such as these help prepare us for a future in which we better have traded-in (some) of our freedoms for sake of protecting us from ourselves, lest we experience a robot revolt of similar proportions as that portrayed in this movie.

[The image depicts a surreal scene with a central pyramid-like structure that appears to be made of stone or concrete. The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar design and color scheme. The background is a gradient of purple and pink hues, with a gradient of blue at the bottom, suggesting a twilight or dawn setting. The overall composition of the image conveys a sense of mystery and wonder, with the central pyramid being the focal point. There are no discernible texts or inscriptions within the image. The style of the image is digital art, with a focus on surreal and fantastical elements.]

I know the quote but consider:

"They" have no loyalties, least of all to a master plan that shows signs of failing. They are the ultimate survivors and jump ship as often as they need to. In Von Braun's time, within memory of the War Of The Worlds radio panic, getting the public to buy into genuine ETs probably sounded plausible. It passed a threshold of possibility (tested and retested in the Close Encounters period, when totally serious belief in ETs was put forward but never penetrated far) and then they recycled the corpse of the idea with Alan Moore to get kids into Masonic lines of thought. Watchman pushes One-World and Noble Lie, but most strongly, it pushes Water Thinking over Rock Thinking. Rorschach is the only serious yet identifiably bad guy and he is only bad because he insists on rigidity, as a function of his unbearable weakness. The ultimate survivors look at principle and Kantian morality as -- what we see in Watchmen -- a shrieking plea for suicide. It makes sense to them because they have survived so long on ruthless flexibility.

The same is what you see in non-meme form because they can simply accomplish that there with their mods and false consensus and drive everyone out, which is what they're attempting to do here today now since they've realized they're just shilling themselves over there and things still are happening here.

They are really shitter shatttered about all that.

Really have to think why they are so desperate to get people off of this board, hmm.

Friends,

When I made the post about earlier with the description of the buses, notice that the narrative quickly got shifted to tractor trailers.

Think about how much attention it would draw, unloading a truckload of people...

This is a diversion tactic. You are looking for buses.

Makes sense they would do this shit.

It's the same tactic for conspiracy theorists, they flood them with false conspiracies in order to drown out the few real ones and make conspiracy theorists as a whole lose their credibility. I think there's also some sort of large-scale psyop to brainwash easily-influenced people into not only ignoring, but actively hate and even attack people who question "official" narratives.

[The image is a photograph capturing a group of red and white mushrooms in a forest setting. The mushrooms are clustered together, with some appearing to be larger and more prominent than others. They are surrounded by a carpet of green moss, which covers the ground and the surrounding area. The forest in the background is dense with tall trees, and the lighting suggests it is either early morning or late afternoon. The image is taken from a low angle, which emphasizes the height of the mushrooms and gives a sense of depth to the scene. There are no visible texts or discernible brands in the image. The style of the image is naturalistic, with a focus on the natural environment and the mushrooms as the main subjects.]

Exactly that.

The recent youtube pepe may be a psyop but that seems to be ours, I don't see how it could be benefitting them yet other than to try and get it synonymous with us like they do with the alt-right.

So far youtube frog has been giving out a reasonable message, but I'm wary of how easily such a thing could become co-opted and used for a number of ends.

I'm surprised they didn't have the recent macy's shooters having (((official pepe apparel))) and shit to link it back to the (((alt-right))) and /pol/ by now.

It's the buses alright. Smaller shuttles and vans too possibly, where they can hide in plain sight.

I would advise anons to actively look out for potentially decommissioned city buses (older buses with your city/metro livery). Also look out for tour buses. A few instances I've seen tour buses in places where I know for sure groups of tourists will not go to. Though it could be a false alarm and it's just empty buses leaving their depots.

The topic-sliding serb is here, watch out.

Also being a "true believer" for carrying a fucking card in your wallet makes you easily markable and findable, they can weed out our own interlopers by picking guys out and having them hand over their wallets or to find one of those stupid cards on them. It's inherently a security compromise to seriously latch onto such a thing that everyone already knows about.

The purpose of "reducing the noise" as the stated goal of the shills who want over the top moderation and all these changes is because they know the only way intelligence signals can be dropped here is if there is sufficient noise for them to get lost in.

Once they eliminate that (((pesky noise))), signals will have to be dropped somewhere else.

Since they already fully control the "somewhere else" that they expect most to end up at, now is the time for them to make their move on subverting this board through taking complete control.

I've been to prison and let me tell you something. The key to surviving and not getting shanked or punked is to be the one behind the punk shanking him. Its kill or be killed, rape or be raped. I remember my first day in some big fuckin coon named Darnel the biggest shitskin in the joint tried to get my ass in the showers, he beat me down pretty bad and was about to put his filthy nigger dick in me.

Laying on the floor with blood gushing out of my mouth,that iron smell in my nose, my head feeling like it was going to cave and water showering into my ear, he grabbed my ankles and pulled me back. In a final attempt to save my white anal purity i grabbed a bar of soap on the floor flipped around kicking him in his nigger multipliers, as he gasped in pain i shoved the bar of soap down his watermelon hole and that bar got jammed in his windpipe and he began choking to death.

On his knees with his hands on his throat nothing coming in or going out just the look of terror on his face as his life began to fade. i whipped out my dick, put it to his lips, grabbed his greasy fuckin cornrows pulling him forward and said "i'd make you suck it you subhuman faggot but im not into bestiality" i then jabbed him in the throat causing the soap bar to fly out of his mouth like it was something out of a fuckin comic.

he fell to the ground and as i walked away i looked at the shocked skinheads in the shower. "didnt know niggers had talent as fucking pez dispensers, hes all yours boys"

Thats the day i became known as Ben " Nigger Dispenser" Garrison some would call me Pez but i frowned upon this as it sounded like a aztec monkey name.

If you'd like to know more about my days in prison just let me know

"There will be so much blood in the streets, you'll be able to float a dingy down Main street." said Skinhead Militia leader and prominent Antisemitic cartoonist Ben Garrison in a recent call for open race war in America. Appearing in a video on YouTube, which has since been removed, a shirtless and heavily tattooed Garrison called on his "racial brethren" to rise up and "cleanse the genetically inferior filth from our homelands and return the Aryan race to rightful its place of domination over the earth."

He had some particularly harsh words for the "anonymous Internet trolls" who edit his racist and Antisemitic cartoons to make them about libertarianism, saying "on the ancient Viking Graves of my divine Aryan ancestors, I vow to mow you down like weeds, you spineless kike cowards!"

Though little is known about Garrison's past, he claims to have done three tours in Vietnam where he "killed more gooks than you can shake a burning cross at." Upon being dishonorably discharged from the military for what official records call "a spree of genocidal massacres," he returned home and began making racist cartoons under the pseudonym of A. Wyatt Mann. He says that he used a pseudonym because at that time he was trying to infiltrate the government so that he could "bring down the entire kike system from within."

Look at which EU country politicians support refugees.

Do some digging.

It seems crazy to people on the outside, but its very well known on the inside.

It sounds crazy, because it is fucking crazy.

Europeans are literally being destroyed/killed because the leadership wants to get fucked(or wants to watch in the corner).

There is such a huge disconnect between the people of the EU, and the leadership of the EU.

This sex scandal is earthshattering.

5bro,

I did everything I could the other night to get the word out on the buses here and reddit and elsewhere about finding the buses. Got some leads I'm still looking into but enthusiasm for the investigation has died for everyone else. I was in contact with 2 anons in Charlotte that have since gone dark on me, if anyone here is local let me know.

My question is: has our window of opportunity closed on the buses? On to more pressing matters now?

I'll be ready. I've got a plan for getting an investigation going next opportunity that arises. I also encourage everyone to spread the word wherever they can (IRL is just as important) in order to educate the public about how these riots are not organic - bringing up the proof we have of Soros pumping \$ into the Ferguson riots is a good way.

5bro,

Answer this question if you can: What kind of buses have they been using? I've been hunting down leads that take me to so far 3 different possibilities: 1 is greyhound type buses, 2 is airport shuttle type short buses, and 3 is white vans (think Ford Econoline)

and appear to be closed, and the mouth is open in a wide, toothy grin. There are two blue tears or tears of laughter depicted in the shape of a droplet, which are located below the eyes. /pol/ will ignore this and say it doesnt matter.

Mark my words, "we have to fight ISIS" Donald keeps repeating is NOT TRUE.

WE do NOT have to destroy ISIS, we only have to contain them and degrade them. Destroying requires a WHOLE OTHER LEVEL of commitment....that means boots on the ground again protecting ISRAEL from ISIS, which is not our job.

There are many ways to prevent ISIS from harming America.

Many ways that dont include boots on the ground or defending Israel.

Should I show you a map?

There is no reason ISIS in the ME threatens the USA.

LOOK AT A MAP.

We keep our borders and homeland security strong to filter out terrorists.

Thats all we NEED to do.

All we NEED to do is stop inflow into the US.

We do not NEED to destroy anything in the ME.

The sex club is at the core.

Which is why so many young women have been brainwashed to support the refugees and left leaning policies.

Though the name will be different, this plan will be put into place in the near future. It is unavoidable at this point. Too much damage has been done and there is nowhere to go.

If you want to feel better and live longer and even look younger cut your sugar down, way down

Remember fags alcohol is empty calories of sugar and the leading cause for males to gain permanent weight as they age

Friends, I'll throw you a bone on the buses.

Look for brand new looking Greyhound size (tour) buses.

They will be solid gloss white with no exterior markings.

Look for largish, sealed, dark tinted windows.

License plates will be vague ie. multi state transporter types.

Look for these in the very late night, early morning hours on the interstates.

You can't miss them, they stick out like a sore thumb.

"Community organizing" is done by the Tans who are basically the Jews of the Black community. They work together and do whatever they can to coordinate their efforts between cities.

I doubt many people are bussed in but at least the top-run of the protest groups are. You can tell who they are by at least one of the three defining characteristics of the protest coordinators/foot-soldiers:

1) Tan

- 2) Black Women(easy to manipulate and thus make loyal tools)
- 3) Black fags(also easy to use since fags always backstab their own group's male members)

I'd guess its going to be Econolines then. A good way to find out is to see what assets Chicago Community organizers own. Just look up the organizations and see if there are any vans parked out back.

Which was only ramped up because of the Tans. Those were Tans that got shot which is a huge deal.

If that was just some Blacks who got killed, it wouldn't've had all the protestors making a huge deal about a fucking flag. At the very least, the protests would've been about getting more money for "Social outreach" or some shit so that local Tans could make money and not have to compete with Blacks or Whites.

Tans are the Jews of the Black race. Hell, they don't even have population sources and just live in urban areas just like Jews. Been that way since even before the Civil War. At least a good bunch got hanged when the war started.

Update about the "Knowledge Bomb" threads Anonymous5 ID:0wbAs9Ey Sat 24 Sep 2016 14:44:27 No.90160282 [ViewReplyOriginalReport](#)

Knowledge Bomb v7 has some very important information.(so important, someone banned me for 24 hours so I could not actively reply to the thread like I usually do).

I was also going to reveal(in Knowledge Bomb v7) that a attack was going to happen very soon.(It ended up being the recent mall shooting)

Now with this covered I want to answer some of the common questions I get in my threads:

1) RP/LARP?

> No

2) Shill?

> No, I hate those guys.

3) Sources?

> Due to the subjects/information covered in each Knowledge Bomb thread, its the type of info that you can't really post on a website.

4) What's your goal?

Getting information out to people in hopefully good timeframes. Since what I cover tends to involve things that are going to happen over time.

All I have ever asked of /pol/ was to listen & spread the information covered in each Knowledge Bomb.

Also I'm not suicidal and in good health(both mentally & physically).

Charlotte Riots(Not "protests") are backfiring massively on:

> BLM
> MSM

- > Hillary
- > Democrats
- > SJW's/Liberals

What you are seeing is only the tip of the iceberg.

The Rioters were bussed in the night before. (Obama has connections to BLM)

The person shot did infact have a gun, not a "book".

-
- > The show Designated Survivor might have some "Lone Gunman" type stuff.
 - > Indi-Paki war is trying to be created by Soro's funded PMC/Black Op's.
 - > SJW groups are to go to battle with eachother, and that includes inside Hillary's campaign.
 - > "London bridges come falling down".
 - > Trump is gaining more support daily, including those who are in high places. While Hillary is losing support daily.
 - > The strongest ally of ISIS is the MSM PC narratives. Never believe them. More IED's coming.
 - > Operation Hornets Nest. (Nuke Sub or Bomber hits Mecca.)
 - > ISIS is coming in from Canada, since the south is proactively being watched by various agencies on both sides of the border due to a possible threat to Mexico City.

[The image is a close-up photograph of a person's face, focusing on the eyes and the upper part of the face. The person appears to be wearing a white garment, possibly a headscarf, and the face is partially obscured by the garment. The eyes are wide open, and the person's expression is one of sadness or distress. Overlaying the image is a quote in a language that appears to be Japanese, which reads: "Life seems to be a black and white movie about nothing, flickering silently on film. The movie is almost over." This quote is attributed to the artist Akihiko Arakawa, who is known for his work in the film industry. Below the quote, there is a smaller text that reads: "Suicide Note found in Akihiko Arakawa's 2007 film." This suggests that the quote is a reference to a film directed by Akihiko Arakawa, which was released in 2007. The style of the image is reminiscent of historical or classical art, with a focus on the face and the text, which is a common technique in art and literature to convey a message or evoke emotion. The use of the quote and the artist's name suggests that the image is intended to be a commentary on the film industry and the themes it explores.]

So 1st off I assume you are refering to the episode of lone gunman which "predicted" the "plot" of the 9/11 attacks.

I have never seen Designated Survivor but I am aware the term may have something to do with COG or rex84 type protocols.

In plain speak, are you saying you are seeing "buzz" regarding an attack which will disrupt the normal succession of power in USA?

The "knowledge bombs" are horseshit. Picrelated shows it all, it's quite enough to know where the world is, where it's going and what ALL the elites are up to.

1). There's no indication whatsoever the global elites are not in agreement on matters of principle. Sure, they are trying to cheat each other of shekels, but in general, they have a common plan for humanity.

2). They discuss and adjust these plans during not-so-secret meetings like Bilderberg, the Trilateral Commission, etc.

3). There will be no uprising in the West. The very idea is fucking dumb. It's already doomed: the westerners have grown too fat and too lazy to risk their \$60k/year salaries, their BMWs and fancy homes and fight. Besides, the demographics indicates it's already too late. The old West is already gone; the remaining stragglers will just quietly die off in a matter of decades.

OP's a faggot.

If Hitler had backed off on the genocide shit, and parked his ass in the Kiev region for a few years and got his shit back together instead of charging into Russia, I think he would have won and the Communists would have been eternally destroyed long term.

Trusting some moron who says the elites are not an agreement and there will be an uprising that'll save the West is putting your hand in the sand. The western civilization is already gone, taken over by the oligarchs and their puppets - SJWs, terrorists, secret services and criminal gangs.

The demographics show that it will only be getting worse. It doesn't matter who wins some elections at this point, it's already a done deal. Though Trump might be able to prolong the agony somewhat - if he's not one of them too, that is.

Gotta correct myself here: not "when it happens" (it's been happening for decades now, it's a process, like throwing a frog in a waterfull of cooker and slowly increasing the fire so it doesn't jump out till it's too late). "When it comes to fruition" would be the correct

I say groups are more aligned on political bearings and/or racial lines.

I'm genuinely a little freaked out. Australian MSM had plenty of reports on the U.S. providing air cover for ISIS a few days ago, even with apologies from our government and reports on the Syrian soldiers that got hit.

I googled for U.S. MSM coverage, and it was all outright lies about Russia breaking the ceasefire by hitting aid trucks supplying Jihadists (the lie being they broke the ceasefire - not that they hit the medical and food trucks, which they did).

Even more disturbing, the images they used were from the White Helmets, an Al Qaeda P.R. joint.

Even more disturbing - Netflix is releasing a Pro Al Qaeda documentary about the White Helmets.

...Soros earlier bought a large chunk of Netflix.

Then this morning the media reports that they "hear" Russia was behind a massive Yahoo data breach that occurred 2 years ago but only now is being released.

It feels like the wheels are in motion for a U.S. vs Russia war and no one is going to put the breaks on.

I would absolutely agree with OP. Some young girls holding a sign don't have a clue as to how the world actually works. They are just regurgitating the messages they get taught in school and on mainstream media and tv and....etc.

The elite own all the media company's, create the school curriculums and dream up the social engineering programs that trickle down and create this. Trust me, you get a group of very intelligence people together and remove all moral consequences from their decisions and let them dream up schemes to control and steer the population they come up with this sort of stuff. Open control will be opposed so it has to be subversive.

We buy into it and then do it to ourselves

All the Kaczynski wants is getting the previous governments' head, especially Tusk's who he considers responsible for his brother's death. Everything happening over here are just means to an end, which is putting a "fair trial" for Tusk and getting him hanged.

I've been saying this since forever and lately even in media there are talks that PiS wants to dig up the Smolensk air crash once again, except this time looking for "incompetently fulfilled duties". Last week our Defence Minister said Tusk said to copy into our press statements whatever the Russian side said.

But this is off-topic completely, but don't lump us in with "nationalism"-surge, PiS is just

using it for personal means.

When there's real fighting, players eventually change. A defeats B, and B is gone. The world's elites haven't changed for well over a century. Together, they rule supreme at least ever since they put their fucking eye-pyramid on US dollar.

Hey OP. Another angle to this i see is based on Hegelian dialectic. This is create a problem, let the problem manifest, offer solution to the problem you created to push your personal agenda. So let's ask:

Why bus in a bunch of protesters to a riot to worsen the situation?

Well, you bring in agitators from out of town and they will chimp out way harder than any local of the community. It's nothing to them and they get to go home consequence free afterwards. The murder of an "innocent" person. This will enrage everyone and is the catalyst of the event to push it to new levels.

Let the event carry on as an example of the loss of control and "chaos" to scare everyone.

Then the police are rolled in to shut down the problem. Solution has been offered and carried out.

Now it's just figuring out what exactly the end goal behind this whole chaos Majic ritual is. It won't be immediately obvious but there will be something to it.

My two cents on the subject

Kek is a a very interesting thing. There is an actual power to groups of people all aligning their will towards an end. People have primal fears and they are used to manipulate us and enslave us. The whole fear of chaos is drilled into us when we should embrace it. Yes things will be bad and people will die but we will learn a huge lesson as a species and the chance for freedom will be there. The way the world is right now is a giant slave plantation.

I have presented it, and watched it being presented many times in the past. I came to the conclusion that it's not that people can't help themselves and society, it's that they simply don't want to do it enough. When you finally get a firm grasp of the concept you get to see just how imperfect you really are (myself guilty as charged). Still the fight goes on, and we're waiting on you. Sorry for the cryptic talk, it's for the better. And I'm not trolling one bit.

I saw a bunch of buses when a huge group of protesters materialized out of nowhere on an ABC helicopter stream.

You said last night this is a bait and switch, is this a distraction so that cells can do something that will exacerbate the protests, such as turning on the power to the city by

destroying a generating station? Or is it so they can stealthily get away with something without being caught, like looting a bank, or a now-understaffed National Guard armory nearby with no police to respond in the area?

Charlottefag here:

>> The riots going on are because Soro's BLM dog just got off the chain.

No they WERE goign on because there is a tense racial situation right now, spurred by useful idiots like Kaepernak and those who make money and wield power based on their claimed ability to keep the "neighborhood" from rioting. They have created an atmosphere where many assume that any time a cop shoots a black suspect, it is unjustified, often after proven otherwise. In that atmosphere, people in the black neighborhoods, at 3 in the morning, got swept up in rumors and social media shit and went berserk.

>> People were bused in en mass during the night, and are traveling to the city to loot.

That's a lie.

>> The person shot by police did in fact have a weapon and was about to try to kill one of the police.

had a handgun, according to Charlotte's black police chief who is widely respected in the black community. What his intentions were is unknown and pretty surely unknowable.

>> This riot is going to backfire on Hillary & the democrats spectacularly.

That is a dumb-ass thing to be worried about today.

>> Rumbblings about national guard possibly being needed.

Presumably the Governor is taking steps to expedite their call-up if needed, but the chief and the mayor seem to be working well with leaders in the black neighborhoods to shut this down, riot-wise. It is unlikely the guard would be needed. Charlotte has a pretty good record of allowing peaceful protest, and of protesting peacefully. Even last night, loud voices in the crowds were calling for the violence to stop, and by the end of the evening police were handing out water bottles to protesters and generally calm was being restored. The chief's statement affirming that a gun was found and that the book referred to in the social media rumors was not will help in that regard.

>> Possible ISIS cells setting things up around the city, using the riots as a distraction.

Oh fuck off...

Then they claim that "they didn't know" when they knew fucking all along. Tans don't want Blacks actually getting shit done. This is why they keep on trying to get them to vent off on humiliating shit while glossing over actual real cases of Blacks getting murdered by cops.

armed them, funded them, trained them and used them to kill people. Ultimaltely they created some flase flags to shut down their whole program such as the Bologna massacre (Gladio Network) and the Oktoberfest bombing (Wehrsportgruppe Hoffmann).

Times just changed. They found a new fool for their dirty work. Seeing what the Red Army fraction did they eventually jumped on the lefty train. Today Antifa and other leftwing groups are the usefull idots for the globalists. BLM is no different. They have the same field of operation and the same agenda. A) Easily manipulated women?

B) Black fags who proudly backstab their race/group like all fags tend to do(see USSR's early foreign agent recruiting)?

or

C) Dupes?

Blacks want change and liberal faggots and Tans don't want that. BLM is just a group that exists to manipulate Blacks and force them to blow off steam so they won't have the pent up anger to do big things. Its pretty easy to manipulate pissed off people since all you have to do is get them to waste their energy on stupid shit that "somehow" keeps blowing up in their face.

BLM is the enemy of the Black race. The Blacks should be armed.

Black fags and easily manipulated Black women are the pawns of urban Tans. Both of them have fucked over Black men for decades. Black women and fags don't lead revolutions but they do poison "their" people.

The Nation of Islam is coopted by the Farakon faggot but the followers are more American than most people realize. The BLM is just a bunch of urbanfags trying to use Blacks for the benefit of Tans.

Tans are literally the Jews of the African American community. All they do is use the Blacks and then get paid by the government. "Muh programs" only HIRE Tans.

Affirmative Action only exists to give TANS jobs/degrees. Racial quotas are for the benefit of TANS.

Tan African Americans are tan because their ancestors were often the children of their owners/masters in the old South and North. They moved north before the Civil War and have basically been fucking over Blacks for generations by using them as pawns while crippling their chances to succeed.

Light-skinned African Americans are NOT the same people as Blacks. They were living in northern White communities using the NAACP to keep Blacks stuck in the Deep South being harassed by the KKK. Tans are such pieces of shit that their selfish desire to never suffer from racism causes them to back-stab Blacks in order to keep their advancement from leading to competition and racism.

Tans remember getting lynched in NYC when the Civil War started. They will NEVER let Blacks succeed.

Whose campaign? If you're going to point to any particular person/group of people, you need a motive. If you can't come up with any motive convincing enough to indict a particular group of guilt, then there's no reason to suspect it's a destabilization campaign. If you think this refugee shit is an intentional campaign to destroy the West, you have to think there's a reason for it, otherwise you're just assuming things.

So what's the reason? Who benefits from the destruction of the most advanced societies in human history?

Knowledge Bomb. Building 7 & Flight 93. Anonymous5 ID:S7b0WD6Z Tue 20 Sep 2016 22:37:33 No.89666519 [ViewReplyOriginalReport](#)

Consider this abit of a "thank you" gift for listening to my other Knowledge Bombs so far.

> Building 7 was brought down by a demolition.

To understand why, consider which agencies were in that building & what possible documents were in it.

Now here is the juicy stuff.

People(some First responders & various government workers) were killed inside the building by a Spec Op's team. The fires inside it was from bodies being burnt and things being destroyed.

Bringing down the building(It was rigged to blow as a fail safe) was a way to cover the whole thing up. A call went out to det the charges.

Lets put it this way, everyone hears about the Twin Towers, but not what happened inside Building 7. 9/11 just gave the Spec Op's team a fantastic distraction and from how things went down, it was planned in advanced.

What or who ever was inside WTC7 was a top priority target for elimination.

The witnesses nearby WTC7 were threatened if they came forward about what they saw or heard near Building 7 before it "collapsed".

NYPD SWAT even responded, but you never hear anything about them on 9/11 do ya? In some 9/11 footage you can even see some of them around.

> Flight 93 was shot down.

Shouldn't be any surprise really.

It didn't crash into the ground, thats just where the debris landed.

[The image depicts a surreal scene with a central pyramid-like structure that appears to be made of stone or concrete. The pyramid is illuminated by a bright, radiant light source that emanates from the top, creating a halo effect around the structure. The light source is surrounded by a swirling, colorful pattern that suggests a cosmic or magical atmosphere. Surrounding the pyramid are three smaller pyramids, each with a similar

design and color scheme. The background is a gradient of purple and pink hues, with a gradient of blue at the bottom, suggesting a twilight or dawn setting. The overall composition of the image conveys a sense of mystery and wonder, with the central pyramid being the focal point. There are no discernible texts or inscriptions within the image. The style of the image is digital art, with a focus on surreal and fantastical elements.]

Like past ones, this one should be very interesting and give some intel.

> SJW groups are fighting internally in Hillary's campaign and bringing it down. The campaign is fracturing due to how many groups want to be the sole special snowflake.

> ISIS has a expansive network in the US, rivaling the EU network. The IED attacks(and there will be more attacks, some very deadly) are just testing the waters.

> Sweden is becoming a hotbed for Radical groups.(Blonde hair, blue eyes, and blood everywhere)

> More people in power(on the "inside") are wanting Trump to win. .

> CTR & Hillary's campaign turned out to be the worse investment for the globalist in recent political history.

> Soros PMC/Black Op's are trying to trigger a Paki-Indi-Chinese war by attacking bases.

> The media's pathetic spin cycle is backfiring spectacularly. MSM is discrediting itself rapidly

> EU is going to break apart.

> UN troops will invade UK, causing NATO to engage them and the UN will be dissolved shortly there after.

> SJW movements are going to violently clash with each other, it will escalate from social media to the streets (Get the popcorn out)

ISIS has cells in both Americas.

Soros funds ISIS and helps them get into places.

Soros also has a Black Op's/PMC under his control.

The Olympics was going to be attacked, but some of the ISIS "scouts" got busted by counter terrorism forces.

It was done by Soros Black Op's/PMC to frame elements in the Turkish government and to try to turn Turkey into Syria/Libya 2.0 if they succeeded in the coup by then having rapid ISIS attacks around Turkey among other things.

>Operation Ronces

This is quite interesting IMO, Operation Ronces is quite strong and this is speaking from an ex military.

Only way to bypass it would be to actually coordinate the slums riots with the PMC attacks. Slums people aren't famous for the discipline, PMC (from yesterday's thread and what you "know" are responsible for the marathon IMC explosion) aren't reliable either.

Now, French soldiers are one of the best trained in the world, every elite troop we have can throw the same results than amerifat's but with 1/2 the budget (GIGN>SWAT, paratroopers>seals, (though I agree Marines > French military)).

Why would some PMC, and especially ex french soldiers go through destroying France? Giving X million of dollar to someone that will blow up the global economy is retarded since dollars will be useless then.

I'll be honest, I might have believed some of what you've said yesterday, but I have big doubts about what you're saying now.

I agree that it is scary to see the Asian superpowers like India and China get at it since they are fuelled with patriotism and will go to such extent as to sacrifice whole towns and fuel the rage of the people through this propaganda (They killed our people, sure we did the same, but they killed OUR PEOPLE).

UK being attacked is a big nono, no sane people of the EU will ever accept this, the people of all of Europe will not accept it and this might make us go to war. The SJWs really are tearing each other apart, and have been for some time now. If you ever take the time to observe these people closely, you will see how easily they set each other off. Half of the time they attack each other over accusations of internalized sexism, misandry, and issues over who should best represent their respective movements. Pic related; feminists, particularly of color, have been radicalized against Emma for years.

They will die a death not unlike the radicals of late 18th century France.

Idk, guys, but the more I read this, the more it sounds like speculation.

I've skimmed the two other knowledge bombs and I can agree with some of these things, but some such as:

> EU is going to break apart.

> UN troops will invade UK, causing NATO to engage them and the UN will be dissolved shortly there after.

> SJW movements are going to violently clash with eachother, it will escalate from social media to the streets(Get the popcorn out)

Sound like pure speculation. Sure, you can predict these things, but any guy that has lurked here for more than a few weeks and has paid attention to things other than rare Pepes can do this. Heck, even people who don't know what /pol/ is can do this, if they

have enough knowledge.

I think realistically I'd never hit anyone with a crossbow when it's all kicking off and then get enriched while trying to reload it but swinging a bladed weapon about is a good way to make someone regret coming near you, although maybe the misses would prefer that if it's feasible.

You're thinking rioters vs. 50 soldiers,

I'm saying it will be rioters with no gun training fighting real soldiers + police forces.

We have organization in our countries, only reason why riots are out of control is because the orders do not get through from higher ups. If it's a real emergency state situation, it will be up to middle ranked officers to lead and coordinate.

You are not military, I'm no expert, but I know this much.

UN is nothing without the state armies backing it. Why would France and the US back a military intervention in the UK.

This is the main point I'm wondering about. Unless the UK turn into a muslim country, in which case, I'd gladly go there myself and help them out, there is no way the UN will invade UK using only mercs.

It's not so much what the facts are in a high kevel leak, it's the ideas you are seeding into the enviroment that matters. Whether or not the info is entirely based in reality is irrelevant.

The man is wearing a dark jacket, a blue beanie, and glasses. He is standing in front of a building with a stone facade and a fence. The whiteboard has the following text: "I need Feminism because I'm tired of feeling 'Unmanly' for my girlfriends' STRAP-ON."

The handwriting is clear and legible, and the man's expression is neutral. The background shows a street with bicycles parked on the side and a person walking in the distance. The style of the image is informal and seems to capture a moment of protest or expression.]

Don't know about those things really.

I do know that Area 51 has always been a aerospace testing base, and the myth about aliens being there was created by the government to generate tourism to the state & around it(locale towns).

[The image is a black and white manga panel featuring a character with large, expressive eyes and a prominent nose. The character has a large, curved ear and a prominent, curved neck. The character's hair is styled in a way that it appears to be flowing, and it is adorned with what looks like a necklace. The character's expression is intense, with a furrowed brow and a slight smile. In the upper right corner of the image, there is a speech bubble that reads "THAT'S BULLSHIT," which is a common expression of disbelief or disagreement. Below the speech bubble, there is another speech bubble that says "BUT I BELIEVE IT," suggesting a contrast between the character's disbelief and the character's belief in the statement. The background of the image is plain and white, which puts the focus on the character and the text within the speech bubbles. The style of the image is reminiscent of manga, with its black and white color scheme and the use of speech bubbles to convey dialogue.]

Very important stuff I want to say this time around. so pay attention /pol/

> ISIS cells did the IED attacks. (which is why the media is covering it up, or trying to)

> The media is covering up attacks as "fireworks", "Transformers", "Gas Leaks". so watch out for this

> The Alabama pipeline leak was actually a ISIS attack on infrastructure.

> The media is covering it all up, and its pushing more people away from the MSM, and making people wake up.

> Obama wants to be out of the whitehouse, he is getting sloppy. He also knows Hillary would end his legacy if she became president and he still hates her beyond reason and doesn't want her to be president. He just wants to Golf.

> Soro's PMC/Black OP's are bringing ISIS leaders out of the middle east and setting them up in Europe and bringing them over the US-Mexico Border.

> Soro's Black OP's have been engaging US special forces on the ground.

> ISIS and other radical groups have been engaging Drug cartels in Mexico-south america.

> CTR(correct the record) funding is running dry and management is taking the money and running.

> Trump is gaining support from people on the "inside". Directly or indirectly more citizens see a positive future due to him. The polls are showing it & things like that.

> Even the Globalists understand that a Hillary presidency would fuck over alot of things and alot of people, so they very much don't like Hillary currently. They went from "We hate trump" to "We are So-So about Trump".

Important Intel. Spread the word.

That number will be childs play to give a assessment due to how many ISIS cells & supporters came in the "refugee" waves.

I have a difficult time believing this, it seems too direct when typically his efforts are underhanded and involve just throwing money at people or groups who are attempting to destabilise society.

Is there ANY sort of evidence we can look to?

As I said, look at where they are located.

Then figure out possible supply routes.

Then look where the tourist spots, gatherings and soft targets are.

Muslim worship locations are also a factor.

If you want to know "where will they attack", think where the most people are going to be clustered.

It's like showing a kid a bunch of icecreams, and asking him "which one do you want?".

[The image is a composite of two photographs, both featuring a cat with a light brown coat and striking green eyes. The cat is looking directly at the camera, with its ears perked up and its whiskers clearly visible. The background of both images is a snowy forest, with trees covered in snow, suggesting a cold, wintry environment. The lighting in both images is soft, with the cat's fur appearing slightly mottled, which is typical of a light-colored cat. There are no texts or discernible brands in the image. The style of the image is a close-up portrait, focusing on the cat's features and the natural surroundings.

Well regarding Indonesia, the most famous terrorist group (Mujahidin Indonesia Timur) are 'trapped' in Poso with the local anti terror group fucked up all of their supply route to the point that they've to eat raw boar.

However, the biggest problem is that since it's an ideology motivated movement, lone wolves and independent cells are inevitable. I was once managed to 'infiltrate' a sympathizer and he showing me his home made rifle.

PS: I'm not an Achmed. To be honest, I think that it would be interesting to have the Muslims and Christians having a little Crusade just like what happened in Poso during the 98s and early millenia

[The image is a screenshot of a news article or a photograph, featuring a man in a formal suit and tie. The man appears to be speaking or addressing an audience, as indicated by his posture and the presence of a microphone. He is wearing sunglasses with pixelated black squares on the lenses, which suggests a humorous or satirical context. The background is blurred, but it seems to be an indoor setting with a flag and a wooden paneling, possibly a governmental or official building. The text in the image reads: "President Assad is not worried about Syrian unrest, gov't is dealing with it." This suggests that the man is addressing a situation related to the Syrian government's handling of unrest within the country. The text is in English and is presented in a bold, capitalized font, which is typical for news articles or headlines. The style of the image is a combination of a photograph and a graphic, with the photograph capturing the man's face and the text providing context. The pixelated glasses add a playful or satirical element to the image, contrasting with the serious tone of the text. The overall composition of the image suggests it is meant to be a visual representation of a news story or a meme.]

Technique #3 - 'TOPIC DILUTION'

Topic dilution is not only effective in forum sliding it is also very useful in keeping the forum readers on unrelated and non-productive issues. This is a critical and useful technique to cause a 'RESOURCE BURN.' By implementing continual and non-related postings that distract and disrupt (trolling) the forum readers they are more effectively stopped from anything of any real productivity. If the intensity of gradual dilution is intense enough, the readers will effectively stop researching and simply slip into a 'gossip mode.' In this state they can be more easily misdirected away from facts towards uninformed conjecture and opinion. The less informed they are the more effective and easy it becomes to control the entire group in the direction that you would desire the group to go in. It must be stressed that a proper assessment of the psychological capabilities and levels of education is first determined of the group to determine at what level to 'drive in the wedge.' By being too far off topic too quickly it may trigger censorship by a forum moderator.

How do you think ISIS got so much land so fast?

The PMC's were helping.

The best way to describe the tech they have is that they are about as strong as some EU armies presently.

They were the ones that bombed Assad's forces to clear the way for ISIS in that location.

The older globalist groups are dying out/retiring, and the newer ones(who want better advancements in tech & people being proud of the places they come from) are gaining more traction.

Which is why you see the OWO(Old World Order) falling apart, and a NWO(New World Order) breaking through.

Hillary's Health is crumbling, So is her campaign and its management staff. Her polls are dropping rapidly and frankly her "supporters" are not actually going to physically vote for her.

Bill doesn't want Hillary to become president. The Clinton Foundation(something he loves & what he spent his post presidency building) would have to be shut down or weakened. He wants to spend time with his family & be around for his grandchildren.

The Obama's hate Hillary still and do not want her in the White house. The biggest reason is that it would erase there legacy. Also how even they know trump would be the better president(Obama wants to retire and relax on some golf courses(trump knows many good ones) at this point.)

Both Obama & Bill do not want Hillary to become president, but they don't mind her running her campaign into the ground rapidly.

The Media has effectively done financial suicide by doubling down for Hillary & the DNC.

More and more people on the "inside", are favoring Trump and want him to win.

CTR(Correct The Record) is not paying people doing the posting, only management & management is in shambles due to pressure from "the top".

The EU is going to break up very soon, People are taking there countries back & fighting back against the Soro's funded ISIS invasion of Europe.

The UN has effectively become the League of Nations 2.0, meaning that countries are going to rapidly be leaving it.

Watch the "world stage" carefully /pol/. All I'm saying is true or is in progress.

The MSM is becoming less and less popular. Pushing away viewership.

And to answer the question, how often do you pay attention to media companies stock & internal finances?

Ripple effects sometimes take time depending on the size of the body of water.

More like the world is waking up from its SJW/PC culture/Globalist hangover.

I've noticed this, this is why I haggle my girlfriend that I want to have children early

my brother and I are 10 years apart and he shows some of that "autism" but more of it is also we were brought up differently.

However, what I wanted to know is are you a regular man or someone inside.
